Mathias, West Virginia 26812

Re: Administrative Order (CWA-03-2012-0021DN)

Dear Mr. PII:

The United States Environmental Protection Agency (EPA) has completed a review of its enforcement docket. Based on EPA's review, you have met the requirement to submit a Virginia Pollution Discharge Elimination System (VPDES) permit application, as set forth in the Administrative Order issued to you on November 14, 2011. While the Administrative Order also required you to submit a copy of the permit and any correspondence from the West Virginia Department of Environmental Protection (DEP) upon obtaining permit coverage, DEP will be providing these documents to EPA on your behalf. Thus, it will not be necessary for you to provide EPA with additional documents relating to this Administrative Order. Therefore, the above referenced Administrative Order is officially closed.

EPA recognizes the actions that you have taken in order to meet your compliance requirements demonstrate your stewardship of our nation's waters which results in improved water quality. We look forward to your continued compliance. In the future, any noncompliance with a National Pollutant Discharge Elimination System (NPDES) permit or the Clean Water Act (CWA) could result in the initiation of an enforcement action against you pursuant to the Federal enforcement provisions set forth in Section 309(a) of the CWA, 33 U.S.C. Section 1319(a).

Thank you for your cooperation in this matter, and future efforts to keep the Chesapeake Bay clean. If you have any questions, please contact Ms. Ashley Toy at (215) 814-2774.

Sincerely,

A handwritten signature in black ink, reading "Michelle Price-Fay".

Michelle Price-Fay, Chief
NPDES Enforcement Branch
Water Protection Division

cc: Mike Zeto, DEP (via email)
